NBRJ was commenced in 2020 by the collaborative efforts of Bangladeshi origin researchers working at different universities, research organizations, industries, and corporate sectors across Japan. Since then, NBRJ has been striving to promote communication and create values among its members through organizing various online seminars and events.

In 2021, Bangladesh has marked 50 years of independence. Commemorating this glorious landmark, NBRJ will organize a workshop titled “**Multidisciplinary Research Workshop at 50 Years of Bangladesh.**” held on **March 26–27, 2022** at Tokyo International Forum. The workshop aims at sharing the research achievements of NBRJ members to provide a common platform for future multidisciplinary research collaboration and intellectual stimulation.

We solicit presentations that fit in one or more of the following categories:

- (1) Research achievements;
- (2) Survey work related to BD;
- (3) Proposal on collaborations between BD and Japan; and
- (4) Proposal on solutions of challenges in BD.

Scope and Topics	Session Chair
Business, Humanities and Social Science	Mizanur Rahman Khondaker, Nanzan University
Agricultural Sciences	Tofael Ahmed, University of Tsukuba
Medical, Pharmaceuticals and public health	S.M.A Hakim Siddiki, Tokyo Metropolitan University
Natural sciences, Engineering and ICT	Nazmul Ahsan, The University of Tokyo
Cross-Cutting Areas: SDGs, Gender, Climate Change, COVID-19 Pandemic, etc.	Chowdhury Mahbubul Alam, Fukuoka Women's University

- A number of panel sessions will be organized:
 - Long term career in Japan for Bangladeshi Young Researchers
 - Bangladesh at 50 Years: Reflections of Bangladeshi Researchers

• **H.E. Mr. Shahabuddin Ahmed, The Ambassador of Bangladesh to Japan will be presenting at the concluding session.**

- All NBRJ members are cordially invited to attend this workshop and present their premiere research outcomes.
